Welcome to DialogLink - Version 5

Revolutionize the Way You Work!

New on Dialog

Enhanced Derwent World Patents Index Now Available

The enhanced *Derwent World Patents Index*® (*DWPI*SM) (Files 350,351,352) is now available on Dialog. The improvements implemented in *DWPI* on Dialog further extend the database's rich content set and enhances overall functionality of the database.

In addition to distilled expert analysis reflected in *DWPI* expanded titles and abstracts, other enhancements include original patent filing details, multiple patent images, easy cut-and-paste patent family data, and much more.

The new templates include new features that will help you manage and distribute your *DWPI* search results in an attractive format.

Learn about all of the new *DWPI* enhancements and report templates at <http://www.dialog.com/dwpi>.

DialogLink 5 Release Notes

New features available in the latest release of DialogLink 5 (November 2005)

- Ability to resize images for easier incorporation into DialogLink Reports
- New settings allow users to be prompted to save Dialog search sessions in the format of their choice (Microsoft Word, RTF, PDF, HTML, or TEXT)
- Ability to set up Dialog Alerts by Chemical Structures and the addition of Index Chemicus as a structure searchable database
- Support for connections to STN Germany and STN Japan services

Stiffness and neuromuscular reflex response of the human spine to posteroanterior manipulative thrusts in patients with low back pain

(ABSTRACT AVAILABLE)

Publication date: 20011000

Publication date: 20011000

Abstract: ...outcome assessment instruments, including Visual Analog Scale, Oswestry Low Back Disability Index, and SF-36 **health status** questionnaires. Clinical categorization was made on the basis of symptom frequency and LBP history. A hand-held spinal manipulation **device**, equipped with a preload control frame and impedance head, was used to deliver high-rate... ...were obtained from electrodes (8 leads) located over the L3 and L5 paraspinal musculature to **monitor** the bilateral neuromuscular activity of the erector spinae group during the PA thrusts. Maximal-effort ...

TERVA: System for long-term monitoring of wellness at home

(ABSTRACT AVAILABLE)

Publication date: 20010300

Publication date: 20010300

Abstract: Long-term **monitoring** of physiological and psychosocial variables in out-hospital conditions would be beneficial for investigating changes... ...to understand interaction between physiological and behavioral processes. We aimed to design a personal wellness **monitoring** system (TERVA), which would allow **monitoring** of wellness-related variables at home for several weeks or even months. The designed TERVA system runs on a laptop **computer** and interfaces with different measurement devices through a serial interface. Measured variables include beat-to... ...the variable under consideration. The pilot study indicated that the recorded data accurately reflected the **health status** of the subject. The TERVA system provides a method to record and investigate wellness-related... ...several weeks, or even months, outside the hospital among subjects capable of using a personal **computer**. Several applications of the system are discussed.
